Sustainability

At Vitra we're passionate about creating a healthier world, starting right from your bathroom

How do we do it?

Picture this: our ceramic factory in Bozüyük, Turkey, now houses a state-of-the-art solar panel plant on its rooftop. This year alone, it's set to produce an incredible 5.4 million kilowatts of clean, renewable energy. And that's just the beginning! Our plans include expanding this solar initiative across 112,000 square metres, aiming to cover 37% of our electricity needs straight from solar power.

But we don't stop there. Our dedicated teams are hard at work, focusing on every aspect of our production journey. From innovating product packaging to significantly reducing water consumption, we're committed to making a real impact. And you're a crucial part of this journey towards a more sustainable future.

Together, with every purchase you make, you're contributing to a world where every step towards a greener tomorrow counts.

Join us in making a difference, one bathroom at a time

Key features

SmoothFlush
VitrA SmoothFlush WC pans have no rims or openings that might harbour harmful bacteria or microorganisms. This makes VitrA SmoothFlush WC pans much easier to clean and offers maximum hygiene.

VitrA Hygiene
Coats all VitrA ceramicware and inhibits the growth of harmful bacteria by 99.9%.

Accessible
VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

Concealed installation
The recessed installation detail and screws at the sides of standard wall-hung toilets are taken into the interior of VitrA wall-hung WCs. This leaves nowhere for dirt to hide and simplifies the cleaning of the entire surface.

Soft-close seat
Special hinge for silent and soft-closing.

Comfort height WC
Taller for ease of use.

Water-saving
Flushes with lower water volume.

Space-saving
Short-projection, wall-hung, concealed installation.

RIM-EX

Rim-ex
The smoothly attractive rimless WC pan Rim-ex prevents germ proliferation and offers superior hygiene thanks to its innovative design. Tests show Rim-ex is 95% more hygienic as compared to standard WC pans.

Accreditations

Water Regulations Advisory Scheme
Promoting sustainability, preventing contamination.

WCs

A wide range of choices available, you can choose between close-coupled, wall-mounted, and back-to-wall WCs, in addition to a space-saving corner cistern along with compatible cisterns.

Made from quality craftsmanship, our ceramics are built to last, with long-lasting materials.

V-Fix Frames are crucial for a modern bathroom, supporting and holding wall-hung toilets firmly in place without the need for expensive structural building work.

Whatever your project needs, Vitra's range of frames offers you complete flexibility. The reduced height frame is perfect when space is at a premium or the room has a sloping roof or low window. The frames can be used in solid, stud and double-stud wall scenarios and are both available with a choice of flushing volumes.

We vigorously test all our products, above and beyond the minimum standards of testing

- 1 Our brassware cartridges are tested nearly **2 million times** more than the European standard
- 2 We test against brassware corrosion for **720 hours**, compared to the average of **200 hours**, to ensure all of our taps keep their shine
- 3 Our shower hoses are tested for strength by tying on **1.8 kg** of weight and bending it **10,000 times**
- 4 Our durability testing is **10 times more** than the average, applying **50 bar water pressure** instead of just **5 bar**, to ensure they won't leak even after years of use

Our promise to you

Vitra products are designed and built to the highest standards. As a result, we can proudly offer customers a **10 year warranty** on all Vitra brassware and a **5 year warranty** on all showers and accessories.

If you have a manufacturing fault with one of our brassware products within **10 years**, we will replace the working parts for free.
